Greetings Community Partners,

Thank you so much for your continued support and partnership with H.E.A.R.T.S. We are writing to you to express our need to replenish our **LoveBug Children's Closet (LBCC).**

LBCC Impact:

The LoveBug is a consignment-like store where participants can shop with dignity for baby clothes, supplies, diapers, formula, toys, books, personal hygiene items, and household supplies. Since opening in May 2020, thanks to our community's generosity, we have supported families with over 221 visits and provided $30,486 worth of essential supplies this fiscal year (July 1, 2024, to June 19, 2025).

As we serve more participants and families, the demand for the LoveBug Children's Closet (LBCC) has increased, but donations have not kept pace. We are seeking community partners to host baby showers or supply drives for requested items (listed on page 2) to help young parents and keep the LBCC fully stocked.

We hope you and your network can host a drive once or twice a year, or more frequently, to replenish the LoveBug. We would be thrilled to honor you as a LoveBug Sponsor with photos in the LBCC and shout-outs in our newsletters and on social media.

If you have any dates in mind, ideas, or questions, please contact Tameka Brown at 984-244-1715. Thank you for your consideration, and we look forward to our continued partnership.

Thanks,

Syerrah Sheppard
LoveBug Attendant

The LoveBug Children's Closet (LBCC)
Requested Items for Women and Men:

Brands requested but all appreciated: Huggies, Pampers, Dove, Aveeno, Burt Bee's, Jergens, Dawn, Secret, Myers, Tide, Gain, Degree, Dove for Men, Axe, Old Spice, Gillette, Dr. Bronner, Ricitos de Oro.

Inventory Logistics: Due to the large number of families we serve, we prefer to receive individually wrapped products, such as single rolls of tissue and paper towels. This allows us to distribute two rolls per family, rather than giving six rolls to one family. It ensures equitable distribution, allowing each family to receive an equal share of supplies. It also helps us manage inventory more effectively, making it easier to track and allocate resources.
